PROFESSIONAL SUMMARY

Fourth-year Information Technology undergraduate at SLIT with hands-on experience developing enterprise applications during a Software Engineering Internship at Sri Lanka Insurance Corporation (SLIC). Proficient in React.js, ASP.NET Core, .NET Web API, Oracle Database, and RESTful API development. Experienced in building scalable business applications, improving existing enterprise systems, and collaborating in Agile development environments. Seeking an entry-level Software Engineer opportunity to contribute to innovative software solutions.

TECHNICAL SKILLS

Programming Languages: JavaScript, Java, Kotlin, C#, C++, C

Frontend: HTML, CSS, JavaScript, React.js

Backend: ASP.NET Core, .NET Web API, ASP.NET MVC, Node.js, Express.js, PHP

Mobile Development: Kotlin (Android)

Databases: Oracle, MySQL, MongoDB, Firebase, SQLite

Frameworks & Libraries: React.js, ASP.NET Core, .NET Web API, Express.js, Bootstrap

Version Control: Git, GitHub

Tools & IDEs: Visual Studio, VS Code, Android Studio, Toad for Oracle, Figma

INTERNSHIP EXPERIENCE

Software Engineering Intern

Sri Lanka Insurance Corporation (SLIC) | March 2025 – June 2026

Loss Incident Reporting System (LIRS): Developed a role-based incident management system from scratch using .NET Core Web API and Oracle to replace a previously manual incident handling process. The system enables creation, assignment, and tracking of incidents across departments while implementing permission-based access control with user, role, and department mapping. Designed and developed RESTful APIs to support efficient and structured incident handling workflows.

Life Insurance Dashboard System (Life Net) – Revamp Project: Revamped an existing insurance dashboard system using React, .NET Web API, Oracle, and Active Directory, which previously had low user adoption. Improved performance and usability by implementing secure authentication and building interactive charts to visualize GWP (Gross Written Premium) data with real-time API integration. Enhanced the UI with dynamic and responsive components for events, notices, and image handling, resulting in a more user-friendly system.

PROJECTS

Skill-Share – Skill Sharing & Learning Platform | Group Project | 2025

Technologies: React.js, Spring Boot (Java), MySQL, MongoDB

- Developed a full-stack skill-sharing and learning platform as a 3rd Year PAF module group project.

- Implemented media-rich post creation allowing users to upload text, images, and videos to showcase skills across categories such as coding, cooking, DIY, and photography.
- Built structured learning plan and progress tracking features enabling users to create step-by-step guides and monitor completion.
- Integrated community engagement features including likes, comments, and user follow functionality.
- Utilized React.js for the frontend, Spring Boot for the RESTful backend, and MySQL/MongoDB for data management.

Vehicle Service Management System | Group Project | July 2024 – November 2024

Technologies: MERN Stack (MongoDB, Express.js, React.js, Node.js), HTML, CSS

- Responsible for the appointment management module within a team-developed vehicle service platform.
- Designed and implemented Appointment Scheduling, Customer Notifications, and Service History Integration features.
- Developed Mechanic Assignment logic and Appointment Report Generation functionality.

Online Property Management System | Individual Project | February 2024 – June 2024

Technologies: HTML, CSS, JavaScript, PHP

- Built a comprehensive web-based property management system for landlords, tenants, and property managers.
- Implemented property listings, tenant management, rent tracking, and maintenance request handling modules.
- Delivered a user-friendly interface that improved operational efficiency for all stakeholders.

EDUCATION

B.Sc. (Hons) in Information Technology

2022 - present

Sri Lanka Institute of Information Technology

G.C.E Advanced Level – Technology Stream

Jan 2019 - Aug 2022

Batuwatta National College

G.C.E Ordinary Level

Jan 2007 -Dec 2018

Bandarawatta Parakrama National College

LICENSES & CERTIFICATIONS

- **Introduction to MEAN Stack** – Simplilearn
- **Foundational C# with Microsoft** – freeCodeCamp
- **.NET Fundamentals** – Great Learning
- **JavaScript (Basic)** – HackerRank
- **MongoDB Node.js Developer Path** – MongoDB
- **Python for Beginners** – University of Moratuwa
- **MongoDB CRUD Operations** – MongoDB
 - **Insert and find Document**
 - **Replace and delete Document**
 - **Modifying Query Results**
